Target version:			**Spent time:**	0.00 hour
revision:	r780		**blocked:**	No

Description

when 3 graphs are created in a zone, the scroll bar appears right when the 3rd plot is created but immediately disappears. I can't make it appear again after, and thus can't see the third plot.
Possibly the bug arrives only on mac.

See attached video. At 1'42 the scroll bar appears and then disappear at 1'43.
