Target version:		Spent time:	0.00 hour
revision:	r124		

Description

Avec des valeurs très élevées les floats se touchent rendant les valeurs illisibles :

Exemple:

1. SOURCE DATA BEGIN - Offset in the file (byte pos): 20300 #####
2. PA_LFR_PKT_CNT_ASM: 3 #####
3. PA_LFR_PKT_NR_ASM: 1 #####
4. Number of blocks/samples to read : 32
5. Acquisition Time (first sample):
6. Sync bit : 0
7. Raw Integer (unit of 2⁻¹⁶ seconds) : 46014206509194
8. Seconds : 702121071.0021057128906250
