JUICE-SCM/Ground Segment - Task #4032

Task # 4024 (New): Première version calibration python

Task # 4028 (Resolved): Create Kernel in python

Antenna response function

15/02/2023 04:59 PM - Theo Stassen

Status:	Resolved		**Start date:**	17/02/2023
Priority:	Normal		**Due date:**	21/02/2023
Assignee:	Theo Stassen		**% Done:**	100%
Category:			**Estimated time:**	0.00 hour
Target version:			**Spent time:**	0.00 hour
revision:	r0			

Description
Create function that compote the response of the antenna, using interpolation of reference table values. See what method for interpolation.

History

#1 - 23/02/2023 11:43 AM - Theo Stassen

- % Done changed from 0 to 80

Only need unit testing

#2 - 24/02/2023 05:50 PM - Theo Stassen

- Status changed from New to Resolved

- % Done changed from 80 to 100

#3 - 02/03/2023 10:31 AM - Theo Stassen

The code was incorrect until now. Now working perfectly
