

SciQLOP - Bug #650

Spectro + linear plot in the same scroll area

08/03/2016 10:32 AM - Anonymous

Status:	Closed	Start date:	08/03/2016
Priority:	High	Due date:

Target version:		Spent time:	0.00 hour
revision:	r0	blocked:	No
Description When we put a spectrogram and some linear plots together in the same scroll area, data in linear plots disappear and operations (zoom, range change etc.) become impossible on them. Only the spectrogram can then be managed. This might be due to the way mouse events are handled in the chartview.			

History

#1 - 29/06/2016 09:59 AM - Anonymous

- Status changed from New to Resolved

This bug has been fixed with the new qtchart colormap.
Spectrograms and linear plots can be put together in the scrollarea.
