Description			
The "M" feature in Plots in order to rescale the plot in not working as intended. It unzooms but doesn't scale, and does nothing if the zoom ratio didn't change.			

History

#1 - 29/06/2016 09:57 AM - Anonymous

- Status changed from New to Resolved

Fixed by implementing a method in PlotLine that compute minimum and maximum of all series in the plot. These extremum are then used to set the range on the axes.
